

Yuxin Chen

C330 Engineering Quad
Princeton University
Princeton, NJ 08544, U.S.A.

Email: yuxin.chen@princeton.edu
Homepage: <http://www.princeton.edu/~yc5>

Appointments

02/2017–Present Assistant Professor, Electrical and Computer Engineering, Princeton University
Associated Faculty, Computer Science, Princeton University
Associated Faculty, Applied and Computational Mathematics, Princeton University
Associated Faculty, Center for Statistics and Machine Learning, Princeton University

Education

Stanford University, Postdoc in Statistics, 01/2015 – 01/2017, Advisor: Emmanuel J. Candès.
Stanford University, Ph. D. in Electrical Engineering, 06/2010 – 01/2015, Advisor: Andrea J. Goldsmith.
Stanford University, M.S. in Statistics, 04/2011 – 12/2013.
Stanford University, Ph. D. minor in Management Science and Engineering, 06/2010 – 01/2015.
University of Texas at Austin, M.S. in Electrical and Computer Engineering, 08/2008 – 05/2010, Advisor: Jeffrey G. Andrews.
Tsinghua University, B.E. in Electronic Engineering / Microelectronics, 08/2004 – 07/2008 (graduated with high distinction).

Research interest

Mathematics of data science, nonconvex optimization, high-dimensional statistics, reinforcement learning, information theory, network science, signal processing, and their applications to medical imaging, power electronics and computational biology

Monographs and overview articles

- O1. Yuxin Chen, Yuejie Chi, Jianqing Fan, and Cong Ma, “Spectral Methods for Data Science: A Statistical Perspective,” under revision, *Foundations and Trends for Machine Learning*, 2020.
- O2. Yuejie Chi, Yue Lu, and Yuxin Chen, “Nonconvex Optimization Meets Low-Rank Matrix Factorization: An Overview,” *IEEE Transactions on Signal Processing*, vol. 67, no. 20, pp. 5239-5269, October 2019 (invited overview article).

Journal articles

- J1. Gen Li, Yuting Wei, Yuejie Chi, Yuantao Gu, and Yuxin Chen, “Softmax Policy Gradient Methods Can Take Exponential Time to Converge,” arXiv preprint arXiv:2102.11270, 2021.

Current Ph. D. students

1. Yuling Yan (ORFE, co-advised with Jianqing Fan)
2. Yanxi Chen (ECE, co-advised with H. Vincent Poor)
3. Xiang (Jack) Ji (ECE, co-advised with Mengdi Wang)

Ph. D. theses supervised

1. Cong Ma, *Statistics Meets Nonconvex Optimization: Computational Efficiency and Uncertainty Quantification*, 2020 (now Assistant Professor of Statistics, University of Chicago)
2. Changxiao Cai, *Efficient Estimation and Inference in Nonconvex Low-Complexity Models*, 2021 (now a postdoc at UPenn)

Current postdocs

1. Yuchen Zhou, 2021–present

Former postdocs

1. Pengkun Yang, 2018–2020 (now Assistant Professor, Center for Statistical Science, Tsinghua University)

Senior theses supervision (as the main advisor)

1. Yang Song, CS, 2020
2. Alex Ju, EE, 2020
3. Nicholas Brady, EE, 2020
4. Gene Li, EE, 2019
5. Charlie Hou, ORFE, 2019
6. Liam Collins, EE, 2019
7. Alan Chen, EE, 2018
8. Raoul Rodriguez, EE, 2018
9. Daksh Sharma, Math, 2018

Patents

- P1. Tao Zhang, Yuxin Chen, John M Pauly, and Shreyas Vasanaawala, “Robust dual echo Dixon imaging with flexible echo times,” US 10,338,174, July 2019 (licensed to Siemens Healthcare and GE Healthcare).
- P2. Tao Zhang, John M Pauly, Yuxin Chen, Joseph Cheng, and Shreyas Vasanaawala, “Robust self-navigating MRI using large coil arrays,” US 9,857,446, January 2018 (licensed to GE, Siemens, and Philips).

Teaching

Mathematics of Data Science (ELE520), Princeton University	Fall 2020
Information Signals (ELE201), Princeton University	Fall 2020
Information Signals (ELE201), Princeton University	Spring 2020
Large-Scale Optimization for Data Science (ELE522), Princeton University — <i>Princeton Engineering Commendation List for Outstanding Teaching</i>	Fall 2019
Mathematics of High-Dimensional Data (ELE538B), Princeton University — <i>Princeton Engineering Commendation List for Outstanding Teaching</i>	Fall 2018
Probabilistic Systems and Information Processing (ELE382), Princeton University	Fall 2018
Large-Scale Optimization for Data Science (ELE538B), Princeton University — <i>Princeton Engineering Commendation List for Outstanding Teaching</i>	Spring 2018
Special Topics in Statistical Optimization and Reinforcement Learning (ORF 570 / ELE 578, co-taught with Mengdi Wang), Princeton University	Spring 2018
Statistical Signal Processing (ELE382), Princeton University	Fall 2017
Sparsity, Structure, and Inference (ELE538B), Princeton University — <i>Princeton Engineering Commendation List for Outstanding Teaching</i>	Spring 2017

Honors and awards

Princeton SEAS Junior Faculty Award	2021
Princeton Graduate Mentoring Award	2020
ICCM Best Paper Award (Gold Medal)	2020
ARO Young Investigator Program (YIP) Award	2020

ELE522 (Large-Scale Optimization for Data Science) is included in the Princeton Engineering Commendation List for Outstanding Teaching	2020
Finalist for the Best Paper Prize for Young Researchers in Continuous Optimization	2019
ELE538B (Mathematics of High-Dimensional Data) is included in the Princeton Engineering Commendation List for Outstanding Teaching	2019
AFOSR Young Investigator Program (YIP) Award	2019
ELE538B (Large-Scale Optimization for Data Science) is included in the Princeton Engineering Commendation List for Outstanding Teaching	2018
Princeton SEAS Innovation Award	2018
ELE538B (Sparsity, Structure, and Inference) is included in the Princeton Engineering Commendation List for Outstanding Teaching	2017
Finalist for the Bell Labs Prize	2015
Finalist for the Best Paper Award, SPARS	2013
Graduated with High Distinction, Tsinghua University	2008

Selected professional service

- Co-organizer of the DataX workshop “Old and New Open Questions in Optimization” at Princeton, 2020.
- Co-director of the 54th Conference on Information Sciences and Systems (CISS), March 2020.
- Co-organizer of the Machine Learning for Signal Processing (MLSP) Data Competition (on Map Synchronization), 2018.
- Co-organizer of the workshop “Bridging Mathematical Optimization, Information Theory, and Data Science” at Princeton Center for Theoretical Science, May 2018.
- Co-director of the 52nd Conference on Information Sciences and Systems (CISS), March 2018.
